Journal of Petroleum Science and Engineering 22 (1999) 303–304

JOURNAL OF PETROLEUM SCIENCE & ENGINEERING

Contents Volume 22 (1999)

Special Issue: In honor of Dr. T.F. Yen
Prof. L.K. Jang (Editor)

Editorial 1

Properties of petroleum

The chemical and physical structure of petroleum: effects on recovery operations
J.G. Speight 3

Shifting the bitumen structure from sol to gel
F. Bonemazzi and C. Giavarini 17

Characteristics of Chinese heavy crudes
W. Wu and J. Chen 25

Hydrocarbon group-type analysis of high boiling petroleum distillates by HPLC
D. Qiang and W. Lu 31

Colloidal structures of vacuum residua and their thermal stability in terms of saturate, aromatic, resin and asphaltene composition
S. Li, C. Liu, G. Que and W. Liang 37

The supercritical fluid extractive fractionation and the characterization of heavy oils and petroleum residua
G. Yang and R.A. Wang 47

Thermodynamic models

Thermodynamic models for asphaltene solubility and precipitation
S.I. Andersen and J.G. Speight 53

Phase behavior prediction of petroleum fluids with minimum characterization data
H. Manafi, G.A. Mansoori and S. Ghotbi 67

Geochemistry

A preliminary study of asphalt from a large sulphur deposit in China by the approach of molecular organic geochemistry
J. Fu and G. Sheng 95

Origin of organic sulfur compounds in sediments from the Nördlinger Ries (Southern Germany)
A.O. Barakat and J. Rullkötter 103

Advances in hydrocarbon generation theory (I) Generation and evolution model for immature oils and hydrocarbon
D. Huang 121

Advances in hydrocarbon generation theory. II. Oils from coal and their primary migration model
D. Huang 131

Reservoir geology

Prediction of porosity and lithology in siliciclastic sedimentary rock using cascade neural assemblies
S.A. Katz, L. Vernik and G.V. Chilingar 141

Reservoir microbiology

Microbial degradation of waste hydrocarbons in oily sludge from some Romanian oil fields
I. Lazar, S. Dobrota, A. Voicu, M. Stefanescu, L. Sandulescu and I.G. Petrisor 151

The use of naturally occurring selectively isolated bacteria for inhibiting paraffin deposition
I. Lazar, A. Voicu, C. Nicolescu, D. Mucenica, S. Dobrota, I.G. Petrisor, M. Stefanescu and L. Sandulescu 161
Induced biochemical conversions of heavy crude oils
E.T. Premuzic and M.S. Lin 171

Enhanced oil recovery
Recent development of enhanced oil recovery in China
D.-K. Han, C.-Z. Yang, Z.-Q. Zhang, Z.-H. Lou and Y.-I. Chang 181

Transport phenomena in porous media
Particle deposition behavior simulated by the stochastic method
C. You-Im and W. Jue-Joan 189
Application of the three-stage shrinking core model in the transport of reactive gas in the porous media
Y.-I. Chang and J.-A. Kuo 205

Notes to contributors i

Research Papers
Water production logging in horizontal wells
C.W. Morris, C.P. Lenn and I.J. Albertin 217
Characterization of the isolated wetting crude oil components with infrared spectroscopy
M.S. Akhlaq 229
Modification of Darcy's law for the threshold pressure gradient
A. Prada and F. Civan 237
Determination of specific surface area and mean grain size from well-log data and their influence on the physical behavior of offshore reservoirs
H.S. Salem and G.V. Chilingarian 241
Resistivity index of fractional wettability porous media
C.D. Tsakiroglou and M. Fleury 253
A semi-analytical solution for a two-dimensional capacitance model in solute transport
M. Bai, Z. Shu, J. Cao, M. Zaman and J.-C. Roegiers 275

Book Review
Elements of Petroleum Geology, 2nd Edition
R.C. Selley and M.R. Mello 297

Author Index Volume 22, 1999 299

Contents Volume 22, 1999 303
